[1] At least once per month, at a minimum

[2] 25% of trap filled = Good, 25-50% of trap filled = Fair, >50% of trap filled = Poor. If the trap is in "fair" condition, the establishment should be advised to keep an eye on the maintenance schedule. The cleaning frequency may need to be increased. If the trap is in "poor" condition, the establishment needs to have it cleaned immediately.
